

GUSTAVITO FAJRUL IZZATI DEVA PUTRA

+6285641646594 | gustavitoputra@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#) | Surakarta, Central Java, Indonesia

I am an active Informatics Engineering student in the Diploma Program at Universitas Sebelas Maret with a strong interest and skills in Front-End Development. I have worked on various personal and collaborative projects using modern technologies such as React.js, Next.js, and Vue.js, which allowed me to build a strong technical foundation and practical experience in web development.. Dedicated to continuously learning and keeping up with the latest trends and advancements in web development.

Work Experiences

PT Solutionlabs - Yogyakarta, Indonesia

Feb 2025 - Jul 2025

Internship - Frontend Developer

- Designed and developed interactive and user-friendly web interfaces using Next.js, focusing on performance and scalability.
- Collaborated closely with UI/UX designers to translate wireframes into functional front-end components, and worked alongside back-end developers to integrate APIs effectively.
- Implemented responsive design practices to ensure seamless user experiences across a wide range of devices and screen sizes.

Resonance Residence - Magelang, Indonesia

Mar 2025 - Apr 2025

Freelance - Frontend Developer

- Responsible for building and developing the main company website interface using Next.js as the front-end framework, which contributed to a 20% increase in sales by improving user engagement and site performance.
- Created landing pages, property listing pages, and integrated location features using the Google Maps API to display interactive map points and navigation.
- Collaborated closely with the UI/UX team to ensure the design was implemented accurately and optimized for responsiveness across various devices.

Vocation of The Champions - Surakarta, Indonesia

Apr 2024 - Nov 2024

Technology Staff

- Built the event website with a responsive design that aligned with the event's branding using HTML, CSS, and PHP.
- Implemented key features such as competition information pages, event timeline, and terms and conditions sections.
- Collaborated with other divisions (media, public relations, and competition) to ensure timely delivery of content and website functionality based on event requirements.

PT EMJI PAS - Surakarta, Indonesia

Aug 2022 - Nov 2022

Internship - Graphic Designer

- Designed various print and digital materials, including banners, brochures, posters, business cards, stickers, and t-shirts, based on client requests, using design tools such as CorelDRAW and Adobe Photoshop.
- Participated in the printing production process, such as cutting, laminating, and other finishing tasks, to ensure the final output matched the design and client expectations.
- Communicated directly with clients to understand their needs, provide design revisions, and ensure overall satisfaction with the final product.

Projects

StudySync | [Vue.js](#), [Tailwind CSS](#), [Laravel](#) | [Github](#)

Fullstack Developer

- Developed StudySync, a web-based application designed to identify individual learning styles, such as Visual, Auditory, and Kinesthetic through interactive quizzes and personalized results.
- Built the front-end using Vue.js to create a responsive and user-friendly interface, and implemented the back end with Laravel to manage user data, quiz logic, and result calculations.
- Designed and integrated a dynamic result dashboard that displays learning style percentages along with tailored explanations and images, enhancing user engagement and educational insight.

LittleFairyFlorist | [Vue.js](#), [Tailwind CSS](#) | [Github](#)

Frontend Developer

- Developed the front-end of LittleFairyFlorist, a custom CMS-based flower ordering website with an online purchasing feature integrated directly with WhatsApp
- Implemented key features such as home page, product listings, and order forms using Vue.js and Tailwind CSS, ensuring smooth and intuitive navigation across devices.
- Engaged with stakeholders to translate design requirements into clean, modular front-end components, focusing on visual consistency, maintainability, and interactive user experience.

Web Developer

- Developed the official website for BEM SV UNS 2024 to showcase the organization’s structure, programs, vision and mission, and other public information in a well-organized and accessible format.
- Built the website using HTML, CSS, and JavaScript, focusing on creating a functional, visually consistent interface aligned with the organization’s branding.
- Worked with the internal team to implement content updates, improve navigation, and ensure the website met the organization’s technical and communication needs.

Education Level

Universitas Sebelas Maret - Surakarta, Indonesia	Aug 2023 - Aug 2026 (Expected)
Diploma in Informatics Engineering, 3.90/4.00	

Organizational Experiences

AIESEC Future Leader - Surakarta, Indonesia	Oct 2024 - Jan 2025
Delegates	

- Appointed as the team leader for a final project involving the creation of a business proposal, by leading and organizing weekly online meetings for one month, and contributing ideas and insights for the business concept.
- Actively participated in group discussions and developed strong public speaking skills throughout the project.
- Ensured that tasks were delegated effectively and deadlines were met by maintaining clear communication and team coordination.

BEM SV UNS 2024 - Surakarta, Indonesia	Feb 2024 - Jan 2025
Creative Media Staff	

- Held responsibility for developing and maintaining the official website of BEM SV UNS 2024, ensuring that the platform functioned smoothly and reflected the organization’s identity.
- Contributed as a videographer and video editor to support the execution and documentation of BEM SV’s programs and initiatives, helping to enhance their visibility and engagement.
- Collaborated with multiple divisions to align digital content with organizational goals and ensure consistent communication across platforms.

Gagas Kreatif 2024 - Surakarta, Indonesia	Oct 2024 - Dec 2024
Publication Documentation and Design Staff	

- Created Instagram feed designs and edited promotional videos to support the Gagasan Kreatif event using Canva, Figma, and Adobe After Effects, ensuring each asset aligned with the event’s branding.
- Focused on enhancing audience engagement through visually appealing content and ensuring that all media assets effectively communicated the event’s goals and messages, contributing to the success of an event attended by over 100 participants.
- Worked closely with teams to brainstorm content ideas, coordinate publication timelines, and maintain consistency across all digital platforms.

Jago Ngedit Bareng Medkom (JARKOM) 2024 – Surakarta, Indonesia	Apr 2024 - May 2024
Vice Chairperson	

- Coordinated the "Jago Ngedit Bareng Medkom (JARKOM)" event to ensure everything was well-organized and executed effectively before, during, and after the event.
- Collaborated with other divisions to monitor the progress of the program and ensure that all planned activities were properly carried out.
- Contributed ideas and suggestions during internal meetings to support event planning, improve execution strategies, and ensure alignment with the event’s goals.
